## Job's experience

### Proyecto & Topografia (1 year)

**2018**

Web Developer

- I designed and build  
static website for brand  
presence.

### School Chess (1,6 year)

**2019**

Full Stack

- I created an application  
from start to finish  
completely customized.  
- I created the design and  
implementation of its  
own database.

- I am developing a app  
game currently.

### Premmia (5 Month)

**2020**

Full Stack &  
Scrum Master

- I created two new  
blocks on the Moodle.  
- Advanced SQL query  
generation.  
- Representative at  
project meetings.

### Airin Project (Actually)

**2020**

Full Stack

- I am designing and  
developing my own  
projet with collaborators.

## Knowledge

**E** Expert

**A** Advanced

**I** Intermediate

**N** Novice

### Languages

**A** Java  
**A** Dart  
**A** C#  
**I** Php  
**I** JavaScript

### Frameworks

**A** Flutter  
**I** Express  
**I** Angular  
**I** NodeJs

### Databases

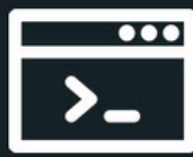

**E** MySQL  
**E** SQLite  
**A** SQL Server  
**A** Oracle  
**A** MongoDB

### Infrastructures

Project Management  
Teaching  
Autodidact  
Teamwork

## Language proficiency

**Spanish** (native)

**English** (intermediate)

## Projects

### ChessPoint

App Mobile & Tablets

ChessPoint is a great app that I've  
developed. With this app you can  
manage your students and facilitate  
your work.

### LaPared

App Mobile & Tablets

LaPared is a game app that I've  
developed. Is still in development  
but it will be a great game.  
Include Google Admob.

### AirinProject

App Cross-Platform

This is a friend's project that I've  
developed. With this app you can  
manage all your classes including  
tasks, chats and services.  
Made with Flutter and with its own  
server in NodeJs.
